Services for
Mental Illness

network180
Lives Redirected.

Sometimes people can feel sad or angry for no reason, or hear or see things that are not real. These may be signs of a mental illness.

Just like any illness, a mental illness can make things hard for your physical health, relationships, family, or job. One in every 5 people has some kind of mental illness such as schizophrenia, bi-polar disorder, or chronic depression.

The good news is mental illnesses can be treated and recovery is possible. If you or someone you know has a mental illness, network180 may be able to help.

Programs

Assertive Community Treatment: A multi-disciplinary team approach to provide comprehensive, strength based and flexible services to individuals with severe and persistent mental illness and co-occurring disorders who have the most serious challenges living independently in the community.

Case Management: Case Management services to adults with a severe mental illness or co-occurring disorder.

Clubhouse Services: Services available to those with a serious mental illness or a co-occurring disorder who have psychosocial rehabilitative goals that can be achieved in a supportive and structured environment.

Community Living Supports: Necessary supports to adults with severe and persistent mental illness or substance use disorders to live as independently as possible and prepare them for more independent living.

Community Placement: Supports for adults in Licensed Community Foster Care homes.

Consumer-Run Services: Consumer-run drop-in centers that provide an atmosphere of support, recreation, socialization, and relaxation.

Crisis Intervention: Short term, outpatient, intensive treatment services to resolve crises or provide an alternative to inpatient hospitalization.

Crisis Residential Services: Services that are intended to provide a short-term alternative to inpatient psychiatric services for individuals experiencing an acute psychiatric crisis when clinically indicated.

Enhanced Mental Health Services: Medically necessary supports and services which promote and maintain community inclusion and participation, independence, and productivity.

Facility Liaison Services: Liaison services to adults who have been authorized by for admission to Kalamazoo Psychiatric Hospital (KPH) and other state facilities.

Housing Assistance: Resources for individuals who are experiencing a housing emergency that impacts their psychiatric stability.

Kent County Correctional Facility: Mental health and jail diversion services to adults with a mental illness, co-occurring disorders, and/or developmental disabilities.

Michigan Prisoner Re-Entry Mental Health Program: Service delivery and coordination for eligible parolees or other consumers released from prison.

Nursing Facility Mental Health Monitoring: Nursing home monitoring services to adults with mental illness residing in a nursing facility.

OBRA PAS/ARR: Pre-admission screenings, annual resident reviews, and appeal notifications for nursing home placements.

Outpatient Services: Services designed to provide face-to-face individual and group treatment.

Outreach Services: Outreach services to individuals in Kent County who have mental health needs, substance use disorders, co-occurring disorders or who are at risk of becoming seriously mentally ill and/or developing a substance use disorder.

Psychiatric Support Services: Psychiatric support services to adults with mental illness or co-occurring disorder.

Recovery Academy: This program is intended to increase and support individual peer participation in various systems, planning groups, committees and meetings. Please click here for more information about Recovery Academy.

Specialized Residential: Specialized Residential services are designed for adults with a severe and persistent mental illness and/or co-occurring disorders and provide structured living support and treatment.

Support and Service Coordination: Supports coordination services and/or individual/group therapy to adults in Kent County who have mental health needs, substance use disorders, co-occurring disorders or who are at risk of becoming seriously mentally ill and/or developing a substance use disorder.

Supported Employment: Therapeutic work activity through Community-Based Supported Employment to individuals with a mental illness or co-occurring disorder.

Supported Housing – Genesis: Support services to adults with severe mental illness or a co-occurring disorder or developmental disability.

Project Get Connected: Project Get Connected was created to partner with local church ministries and to provide assistance with the mental, emotional, and spiritual needs of their members and surrounding communities.
